

Acne Spot On

Art no: 1804xx

Reduces pimples and accelerates healing

The Acne Spot On contains the following items:

- A 4ml Spot On Pen
- Instruction sheet
- App Support

Active ingredients / How it works

Acne Reduce will heal and eliminate acne and strengthen the skin by stimulating collagen production to make the skin more resilient, firm and elastic. This cream has mainly two active substances: concentrated Immunoglobulins from Bovine Colostrum (IgG) and A-vitamin. The IgG gives a prolonged action against bacterial growth in the acne spots, pores and hair follicles. The A-vitamin is a water solution and penetrates the skin and it helps to relieve the symptoms of Acne. Both a printed manual and a mobile application can support with personal guidance, as each treatment is individual. The Spot On Pen is handy to bring a long and apply multiple times for effective results.

3+ Unique Competitive Advantages

- Zero Salicylic Acid which means no skin dryness
- Added Vitamin A which strengthens skin
- IgG gives prolonged action and protection against future spots
- Beconfident® Acne App support
- Handy to bring along to speed up treatment
